

SUCTION HOSES | DESCRIPTION

Rectus offers a wide range of hoses for suction and installation. All hoses are especially selected to cover special demands and our knowledge in the field is based on many years experience.

The single wall suction hose is a very popular hose because of its lightness and flexibility. Furthermore it is very cheap compared to other types. The hose is made of polyethylene. Please note that the hose is not autoclavable or suitable for cleaning in dish washers.

The double wall suction hose is used on many units due to its smooth and estetical look. The hose is made of a outer and inner hose with a spiral in between. Please note that the hose is not autoclavable or suitable for cleaning in dish washers.

The installation hose with metal spiral is especially designed for use in dental installations. The hose can stand a high vacuum due to the metal spiral and still be very flexible. The hose can bend 180° in an absolute narrow curve without collapsing.

Please do not hesitate to contact us for further detail or advice.

SUCTION HOSES | FEATURES

Features of the suction hoses include:

- ✓ High pressure resistant
- ✓ Easy to bend in tight corners
- ✓ Cost effective solution
- ✓ Wide range of sizes and colours

SUCTION HOSES | TECHNICAL SPECIFICATIONS

SINGLE WALL

PRODUCT	ITEM NO.	SIZE	COLOR
SW Suction hose	430946	Ø 9 mm	Black
SW Suction hose	431146	Ø 11 mm	Black
SW Suction hose	431645	Ø 16 mm	Black
SW Suction hose	430947	Ø 9 mm	Grey
SW Suction hose	171133	Ø 11 mm	Grey
SW Suction hose	171632	Ø 16 mm	Grey

DOUBLE WALL

PRODUCT	ITEM NO.	SIZE	COLOR
