

## G-BOX | THE MODERN GRINDING BOX

Grinding in plaster, acrylates and other hard materials often leads to a dusty working environment which is a severe health risk for the staff. The grinding box - G-box - is the result of several years of knowledge sharing and collaboration with our customers to avoid these risks.

The G-box makes it easier to maintain a high hygiene standard at the lab and in the clinic. Fumes, dust and coarse particles are efficiently collected in the box, which can be used both with and without a suction motor.

The transparent lid is made of tempered glass for your safety. The handholes are made of smooth material and have punched tongues, which close tight around the wrist. The built in LED light gives a strong 3500 lux light centered in the working field. Combined with the magnifier you will see the smallest detail very clear!

The G-box could be used upon a table with suction grate mounted through the table, on the G-Cart or in a G-Drawer. Connect one of these solution with CP suction motor, silencer and hand valve and you will have a complete solution.

## G-BOX | FEATURES

Features of the G-Box include:

- ✓ Integrated 3500 lux LED light
- ✓ Smooth handholes
- ✓ Solid metal construction
- ✓ Hardened glass lid
- ✓ Attachable magnifying glass

## DIMENSIONS

PRODUCT	ITEM NO.	WIDTH (A)	HEIGHT (B)	DEPTH (C)	OUTLET	VOLTAGE	LIGHT	WEIGHT
G-Box	901093	300 mm	325 mm	335 mm	Ø 50 mm	230 V	3500 lux	6,0 kg

## ACCESSORIES

PRODUCT	ITEM NO.	WIDTH (A)	HEIGHT (B)	DEPTH (C)	WEIGHT
Magnifier	901036	100 mm	100 mm	15 mm	0,3 kg
